

DRAWTOGETHER CLASSROOMS

Pilot Program, 2022 Impact Report

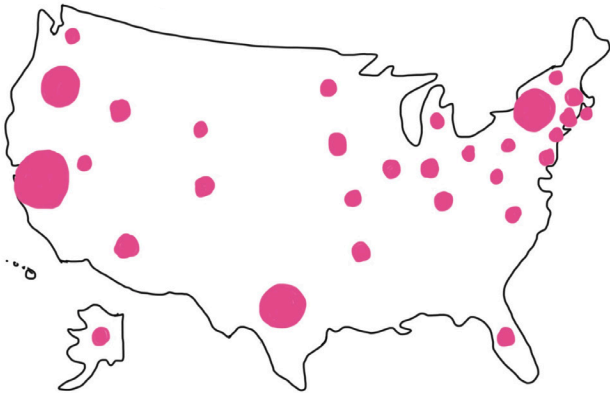

DrawTogether is an interactive show and learning universe that uses art to grow hearts.

DrawTogether Classrooms is a program that empowers educators and learners to develop curiosity, creativity, confidence, and connection through high-quality drawing-based experiences and resources. In the 2021-22 school year, 100 classrooms and programs from 30 states around the U.S. participated in a pilot program to assess the impact of DrawTogether in an educational setting. Here's what we found.

Who We Serve

80% of the schools and programs we partner with serve low-income and historically marginalized communities. Our partners come from elementary, middle, and high schools, afterschool programs, pediatric hospitals, libraries, and community centers.
